# Feature comparison

**SNAP Health Center has more features than any other K-12 health software. Use this evaluation checklist to make your software selection:**

## Workflow

### Nurse-Minded Documentation

Professional, easy-to-use, nurse-driven workflow that allows you to follow your standard of care | Intuitive design developed by RNs

| SNAP                                | Other Systems            |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

## Clinical Features

### Illness & Injury Tracking

1-click access to critical health data | standardized symptom lists

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Medication / Procedure Management

Controlled substance management | Integrated drug reference

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Health Screening Management

Referral management tracking | Mass data entry

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Immunization Management

IIS Registry integration | Automatic compliance reporting

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Care Plans

Emergency Action Plans (EAPs) | Progress Tracking | IHP's

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

## Time-Saving Features

### Group Processing

Batch process documentation & communications | saved groups

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Pre-Built & Custom Templates

Standardized documentation | Custom template builders | AI

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Task Management

Recurring task scheduling | Status tracking | Task delegation

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Automated Form Letters

Auto-filled student data | Batch letter generation | Multi-language support

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

## Administrative Features

### Reports

Dashboard | Compliance & state reporting | Scheduled reports

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Communications & Health Surveillance

Multi-language support | Parent portal | Real-time notifications

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

## Technology Features

### Security & Privacy

FERPA/HIPAA compliant | SSO | SOC 2/Type II compliant

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Software Integrations

Student information Systems | Medicaid Billing | State Immunization Registries

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Modern Design

Web-based | Touch-focused interface | Accessibility / 508 compliant

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

### Award Winning Customer Support

Dedicated support team including RN support | Multi-channel support

|                                     |                          |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|
